Acre City News

By Hops Edson

The U. S. R. S. has established a construction camp across from the Acre City store. Previously a road camp has been in operation here, now with the two camps, the village is presenting a rather busy appearance.

Mrs. Barton has rented her ranch and disposed of her cattle interests. She has not as yet announced her future plans.

Mrs. L. E. Meyard of the southside leaves for Bisbee in a few days. She will make an indefinite stay there.

The high school pupils who make Acre City their home, have reluctantly dragged forth their books, and are about to start in for another year of grind.

One of the prettiest social events that has taken place in Acre City for some time, took place Friday afternoon, when Mrs. M. H. Shelton, entertained at luncheon the Editor of the Kansas City Sun, who has been making Arizona a visit in the interest of his paper. A pretty color scheme was carried out, and the affair was all together, a very delightful one.

After a most pleasant stay on the coast, Mrs. Liebenow and daughter returned home from the coast, where they have been domiciled for the past few months. They took in the fair, and enjoyed the delights of the beach resorts to the fullest extent.

In the Strand magazine. If you hear the swish of wings in the dairy, say, from a covey of partridges or wooden pigeons crashing out of a thicket, then you know there is a disturbing element about. If you hear partridges calling at night in a field you may be pretty sure there is no one there; that may be useful. Small birds, thrushes, blackbirds, larks, and birds generally make a noise when disturbed at night; so do hens, ducks, and geese. You may hear them some distance off. Why are they disturbed? Find out.

All this may sound like "tommyrot" to some of you, but wait till you are in the trenches or on a scouting expedition, and in a full of the dead end of the night you hear strange sounds. It is your business to know what's afoot. A trained observer is seldom mystified, so work hard and become one here at home. Before entering a wood, notice if the birds are leaving it hurriedly, or trying to settle, and not doing so; which means that there are men about. If birds freely enter a wood, or a hedge, and stay there you may be sure there is no man there.

ON THEIR WAY TO SERBIA TO OPEN AN AMERICAN SCHOOL FOR SERB CHILDREN

Miss Elva Reed (left) and Miss Dora Gruich.

Miss Dora Gruich, a Serbian girl, and her secretary, Miss Elva Reed of Oregon, have just left for Serbia, where they will open the Frothingham Home for Serbian Children orphaned by the war. The institute is the gift of John W. Frothingham of New York City, his sister, Elizabeth W. Frothingham of Tarrytown, N. Y., and five Serbian friends who do not wish their names mentioned. The institution will be truly American in character and the children will be taught English as well as their native tongue.

MESA SCHOOLS
BEGIN TODAY

Everything Has Been Put in Readiness for Mesa Schools to Start on This Year Schedule Promptly This Morning.

Vacation for the boys and girls of the Mesa section, closed last night. This morning, after a three months' vacation, the schools will begin their year's work.

The teachers for the coming year have now all arrived and with their summer's rest are eager to begin another year's duties. On Saturday, Superintendent Sherwood met with the grade and high school teachers, outlining the work, arranging classes and attending to other incidentals so as to have everything in "ship shape" for this morning. Most of the teachers have returned to their positions of last year, however, there are a few who are new in Mesa's teaching force. Among these are Prof. Wm. Yeingst who comes from Minersville, Pa., to take the principalship of Mesa's high school. Among other changes will be the transfer of Prof. C. P. Greer from the principalship of the South school to that of the new East building. Miss Mina Alexander will continue her position of last year as principal of the North school.

The old Central building has been remodeled, so as to permit of the South building being closed thereby securing a saving to the district of \$7000 for the year in janitor fees, fuel and other incidentals. The expenses of the high school for the coming year have been estimated at \$20,000, included in which is about \$700 which will be used for a new roof for the building and equipment for the agricultural, manual training and domestic science departments. This will be less than the actual expenditures for last year, part of which economy will be in employing two teachers less in the high school this year owing to a lighter attendance.

A similar saving will be made in the grades by so arranging the work that three teachers less will be required.

ELKS TO OPEN
THIS EVENING

After Many Months of Darkness It Will House One of the Greatest Spectacular Dramas Produced in Recent Years.

Everything comes to him who waits, and tonight the Elks theatre has a real attraction after many months of waiting. Guy Bates Post in "Omar the Tentmaker," should pack the old house to its very doors for not only is Mr. Post one of the foremost actors of the day; but Omar the Tentmaker is one of the most beautiful productions which the stage has ever seen. It is a dream of loveliness, and mixed in with the light and beauty of the setting is some very stirring action. It is the story of the life and Ruhbat of Omar Khayyam, brim full of interest, unfolding a love story of infinite charm and portended in a manner that has made it a nation wide success.

The stage effects are said to be altogether unusual and the lighting is described as the most beautiful ever achieved.

Mr. Post will be supported by a

GUY BATES POST

splendid cast, Miss Louise Grassler playing the female lead. The production is the largest that has been in Phoenix in years, and not even that of the Sothern and Marlowe engagement was as elaborate. It will tax the capacity of the Elks stage to the utmost and will call for the largest crew that has been on the stage in years.

"A book of verses underneath the rough,
A Jug of Wine, a Loaf of Bread—
and Thou
Beside me singing in the Wilderness—
Oh, Wilderness were Paradise to me."

So sang Omar Khayyam of Nishapur in old Persia a thousand years ago—and that is what started all the trouble. The love-life of Omar Khayyam is one of the most thrilling and original in all the annals of history, and the wonder of it is that some alert playwright did not long ago hit upon the theme for a big

to the Mesa section in the interests of prohibition during the last campaign. The place of meeting has not been decided upon as yet, but will be announced later.

CAR OF FORDS COMING

Wm. Trimble, or "Doc" for short, of the Ford garage is expecting a carload of Fords today. There are several others too who are anxiously expecting them as very near the entire car has been sold. It seems that "Henry," even with his output of cars a day, is unable to keep pace with the demand.

An elderly negro in Georgia, charged with the theft of some chickens, had the misfortune to be defended by a young and inexperienced attorney, although it is doubtful whether any one could have gotten acquitted, the commission of the crime having been proved beyond all doubt.

The negro received a pretty severe sentence. "Thank you, sah," said he cheerfully, addressing the judge when the sentence had been pronounced. "Dat's mighty hard, sah, but it ain't anywhere what I 'spected. I thought, sah, dat between my character and dat speech of my lawyer you'd hang me, shore."
